

Wanted Test Plan:

1. 2 high level (broad) tests

- A. The App should be such that we can enter relevant information of a wanted person in the app. We should see a query based on the details we have put in the form.
- B. The App should be able to cancel warrant based on details we provide. The App should show that a warrant was cancelled.

2. 2 low level(specific) tests:

- A. The 'Hair' input field should only take English alphabet characters. We should see the correct hair property.
- B. The weight input field should only allow input upto 3 digits. We should see weight of no more than 3 digits

3. 1 smoke/sanity test

The application should be able to enter, modify and delete a wanted person. We should be able to enter, modify and delete a 'wanted' person.
